

The anniversary edition of *We the Presidents*, published on July 4, 2026, commemorates the 250th Anniversary of American Independence. It has been extensively updated from the acclaimed first edition published in 2022.

Rather than a traditional presidential history, *We the Presidents* focuses on how a century of presidents, from Warren G. Harding to Donald J. Trump, have shaped today's America. Many of today's critical issues – immigration, inflation, income disparity, civil discord, and wars – had their roots in earlier presidencies. With over 140 images and charts, *We the Presidents* brings their lessons alive.

As one reviewer commented, “*We the Presidents* is more than an absorbing read; it is a compelling education on the issues which have shaped the American century up to the present day.”
